The Cancer Alliance of Naples supports families in Collier and Lee counties touched by cancer by providing financial assistance for everyday life – allowing the families to focus on treatment instead of bills.

Your donation to our "Closet" will help us maximize funds raised for this wonderful organization, as well as help you market to a desirable audience. Thank you in advance for your consideration and support!

CAN's Mission Statement: CAN is devoted to helping people touched by cancer – including children residing in Lee or Collier counties and adults in Collier County, Bonita Springs and Estero – by providing financial aid, support, education, and information resources.

To that end, CAN pays for rent, mortgages, utilities, car payments, food and gas gift cards, and other non-medical bills so cancer survivors can concentrate on the best possible outcome of their treatment rather than worry about eviction, loss of power, car repossession, and other bills that would affect both patients and their families
